Print directly on almost anything !!!

Glass · Acrylic · Wood · Bottle · Golf Ball · Metal · Pen · Case · Buttons

- **Vacuum Table**
- **Print Size:34*48cm**
- **Print Height:20cm**
- **CMYK+White 6/8 colors**
- **3D Embossed Effect**

CJ-UV3560D A3 uv flatbed printer can print on flat and rotary materials with all color，With a vacuum adsorption platform, it is very convenient to print lightweight materials，This A3 uv printer can print max printing size is 34*48 cm and with one pcs Epson XP600 ,TX800 or DX7 heads. It can print on various items and wide applications,such as phone case, rotary bottle ,ceramic tile,golf ball, metal, wood, acrylic, glass ,leather ,etc.

| Product Name	CJ-UV3560Deluxe Digital A3 UV Printer	Features	1.Vacuum adsorption table with margin rule

			mark
Machine Type	Automatic Flatbed Small UV Inkjet Printer		2.Total 5 Ball-screws driver on Y-axis and Z-axis
Printer Head	1 PCS EPSON DX10（TX800）/XP600/DX7 Print Head		3.Rugged aluminum alloy machine structure
Max Printing Size	34*48 CM/13.3*18.8 Inch		4.Aluminum alloy automatic cleaning unit
Max Printing Gap	18 CM/7 Inch		5.LED touch control panel
Height Adjustment	Automatic with Sensor		6.Leakage protection device
Ink Color	Cyan, Magenta, Yellow, Black+ 2/4 White, 6/8 Colors		7.The UV light source can be adjusted
Ink Type	UV LED Curing Ink		8.Printing on most material directly
Ink System	CISS Built Inside with Ink Bottle		9.Can printout with 3D emboss effect
Ink Supply	250ml/Bottle		10.Finished product is water and scratch proof
Ink Consumption	9-15ml/SQM.	Operation System	Microsoft Windows 98 / 2000/XP/Win7/Win8/Win10
UV Curing System	LED UV lamp (Water Cooling)	Languages	English/Chinese
RIP Software	Maintop 6.0 or PhotoPrint DX Plus	Interface	USB2.0/3.0 Port
File Format	EPS/TIFF/PSD/BMP/JPG	Driving Power	110 V/ 220 V
Printing Method	Drop-on-demand Piezo Electric Inkjet	Power Consumption	350 W
Printing Resolution	720*1080 dpi,720*1440dpi, 720*2160 dpi	Working Environment	20 ~ 28 ℃ HR40-60%
Printing Speed	About 85 Seconds for A4 Size (with 1440 dpi)	Power Requirement	50/60HZ 220V(±10%)<5A
Printing Direction	Smart Bi-directional Printing Mode	Machine Dimension	80*65*65 CM
Printing Quality	True Photographic Quality	Packing Size	96*95*85 CM
Applicable Materials	Pen,Phone Case,Bottle,Mug,Ceramic Tile,Lighter,Gift Box,USB,Card	Machine Net Weight	70 KG
	Metal, Wood, Glass, Plastic, Leather, PVC, Marble,Paper,TPU,Etc	Gross Weight	110 KG
Media Feeding System	Auto/Manual	Packing	Plywood Case

MAINBOARD SYSTEM

Professional system working stable and precise
Support CMYK and white inks printing together
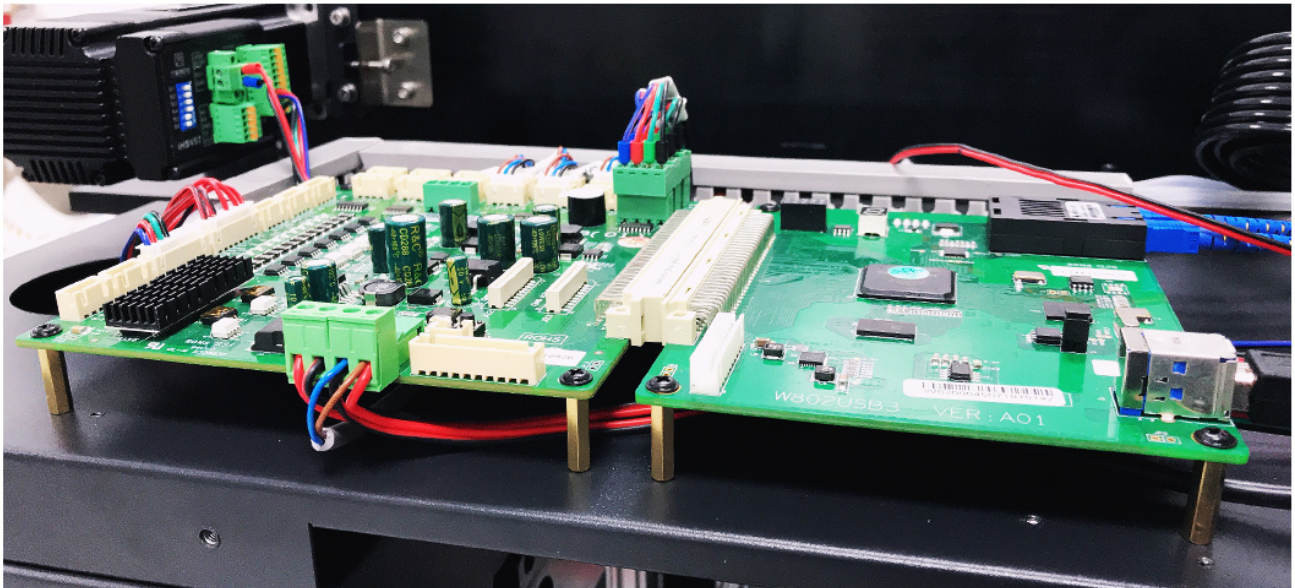

This machine use our own designed software and main board, stably working.

can support, CMYK+white inks print together, 3D embossed printing, rotary mug printing.

VACUUM TABLE

The best for soft materials printing
No need special fixing for good printing

Antioxidative aluminum vacuum sucking platform is more durable and stable.

Super table size ensure you can print on any media with max. 35*50cm printing area. Support max.material thickness 18cm. expand more printing area for customer.

PRINTER BODY FRAME

Reinforced structure with Ball-screw
Ensure the machine working more stable & long lifetime

INKS PROTECTION SUCTION UNIT

High accuracy and aluminum made capping station system
Keep wet of the print heads and protect it
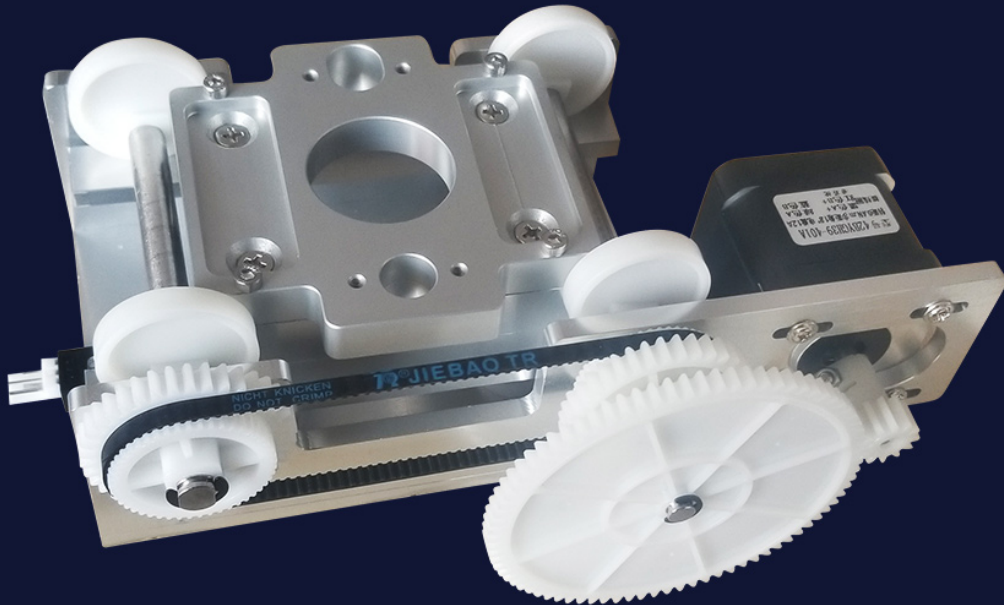

Automatic inks protection and suction unit

This unit control by computer software ,work automatic ,can protect and keep wet for print heads, that so the print head use longer.
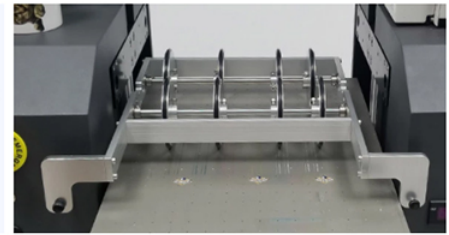

MORE PRODUCT DESCRIPTION

Mute linear guide rail

Hiwin linear guide with high-precision, noiseless, build for long time use.

Vacuum adsorption platform

34*48*20 cm printing size of vacuum adsorption table with margin rule mark

Rotary printing device

Adjustable cylindrical print tooling supports digital UV printing on bend surface, cylinder objects and balls

Imported mute drag chain

From Germany belt high precision and anti-friction.Improve printing accuracy, reduce resistance and noise during exercise

One pcs XP600/DX5 head

CMYK+2 whites or CMYK+4 white, total 6/8 colors

HI-WIN guide rail and screw guide on Z-axis

Stout 4 article straight rail up and down, smooth, stable ,make sure all position of the platform has same height, so can accept Bi-direction printing.
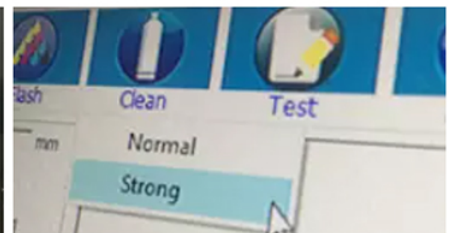

Ink alarm system 250ml/bottle

5-color ink cartridge design, makes the print effect is more realistic .The white ink circulation system work constantly keep white ink from sediment and last the lifespan of print head.
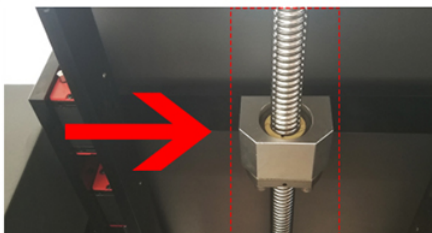

Screw driver

Stable operation, can work for a long time, wear-resistant, not easy to damage,Better than belt driver.

Automatic cleaning by software

One-key deep cleaning of heads to avoid nozzle clogging and automatically extract waste ink

Led touch screen

LED control display screen is easier to operate and control the working status of the machine than the button screen

Water-cooled circulation system

The system ensures that the LED lamp maintains a constant temperature, extending the LED lamp to 40,000 hours,avoiding high temperature hurt

Air-cooled fans

maintain the temperature of the main board and the motor to ensure uninterrupted working of the machine and extend the lifespan of printer at the same time.

★★★★★ by S***********i 🇬🇭 2020/11/12

Great printer - commercial grade, great print quality (see video) excellent support. Thanks Allen and James for setting this up and running in no time at all. it was important for me to get this up and running in the shortest possible time and you did it. I'm happy with this purchase. this is my 2nd machine from you.   my 2nd machine from you

Let me check 上午8:30
I examined the position of the UV light and saw that it's far and there is a protective box 上午8:31
Good machine 上午8:31
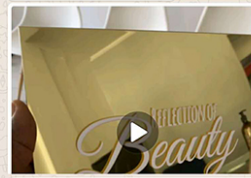

😊 输入消息

Machine works really nice 👍 下午9:53

JUColorins

Yes

The prints comes very beuatiful

Good night and thanks for your patience
thanks for your patience
E L   e 2020-2-25 20:47:27
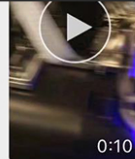

Thank you very much. Talk to you soon! 上午10:56

Works very good

I'm now doing prices

Good job!

FACTORY PACKING & SERVICE

To provide customers with the best service are our eternal goal.

* We are original manufacturer who design and produce our printers,our own professional engineer team knows well about
* One to one professional technical operation free training ,remote guidance maintenance,online technical service is more speedy and efficiency
* Long-term supply of high quality oniginal ink and spare parts.

FAQ

Q1:Are you the manufacturer?

A: Yes, our factory specialized in the UV printer, t-shirt printer and eco solvent printer in Shanghai.

Welcome to visit us, and it will be great if you are interested to be our agent in your country.

Q2:How can we start to use the printer ?

A:When you got the printer ,our engineer will service you at first ,They will tell you how to start and teach you use it one by one until you can use it by yourself

Q3:where can I purchase more inks or parts from?

A:Our factory also provide inks ,kinds of rotary and other parts,you can buy from us or other suppliers in you local market

Q4:What's the printing cost ?

A:Usually the A3 full size cost about 0.06USD So the printing cost is very low

Q5:Does the uv printer can print the 3D embossed effect ?

A:yes ,its can print out that effect ,please contact us for more information and printing videos

Q6:How to maintenance the printer ?

A:About the maintenance ,we suggest to power on the printer once a day .If you don't use the printer more than 3 days ,please clean the print head with cleaning liquid and put in the protective cartridges on the printer ,protective cartridges are specially used for protect print head

Leakage protection device
